Synagro to Highlight Services at North Carolina AWWA/WEA 98th Annual Conference

Company Will Focus on Environmentally Sustainable Solutions for Commercial and Municipal Organizations

BALTIMORE, Maryland, October 30, 2018 – [Synagro Technologies, Inc.](#), the preeminent provider of biosolids and residuals solutions services in North America, is pleased to announce its participation in the 2018 North Carolina Section of the American Water Works Association (NC AWWA) and the North Carolina Member Association of the Water Environment Federation (NC WEA) Annual Conference, in Raleigh, North Carolina, November 4 to 7, 2018, at the Raleigh Convention Center.

Join us inside the Raleigh Convention Center at Booth 1102 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying and energy generation to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

“We are pleased to be exhibiting at the North Carolina AWWA/WEA Annual Conference in Raleigh, and to be showcasing our full line of services,” announced Pam Racey, vice president, Business Development, Synagro. “We’re equally excited by this year’s conference theme – Making a Play for Your Future – so be sure to stop by the Synagro booth to meet the Synagro Solutions team and learn more about us.”

About Synagro

Founded in 1986, Synagro Technologies, Inc. provides environmentally sustainable solutions for commercial and municipal organizations that generate organic by-products. Synagro consistently transforms industrial and municipal waste into environmentally friendly resources that benefit our communities. As the largest recycler of organic by-products in North America, Synagro uses best-in-class processes, from beneficial reuse to renewable energy, that adhere to the strictest of environmental regulations to provide compelling solutions for communities across the continent. Serving more than 600 municipal and industrial water and wastewater facilities in the United States and Canada, Synagro’s leading systems of organic by-product management services support municipalities of all sizes in saving money and meeting environmental regulations.
