Synagro to Highlight Services at 2019 New England Water Environment Association Annual Conference

Company Will Focus on Incineration and Pelletization Services

BALTIMORE, Maryland, January 24, 2019 – [Synagro Technologies, Inc.](http://SynagroTechnologies.com), the preeminent provider of biosolids and residuals solutions services in North America, is pleased to announce its participation in the 2019 New England Water Environment Association (NEWEA) Annual Conference, in Boston, Massachusetts, January 27 to 30, 2019, at the Boston Marriott Copley Place.

Join us inside Copley Place at Booth 180 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying and energy generation to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

“We are pleased to be exhibiting at the 2019 NEWEA Conference in Boston, and to be showcasing our incineration and pelletization services,” announced Pam Racey, vice president, Business Development, Synagro. “We’re equally excited to be a continued Silver Sponsor for the event this year – our 27th as exhibitors. As has become our tradition, we will also be partnering with Woodward & Curran for our highly anticipated customer-appreciation luncheon at Lucca Back Bay.”

About Synagro

Founded in 1986, Synagro Technologies, Inc. provides environmentally sustainable solutions for commercial and municipal organizations that generate organic by-products. Synagro consistently transforms industrial and municipal waste into environmentally friendly resources that benefit our communities. As the largest recycler of organic by-products in North America, Synagro uses best-in-class processes, from beneficial reuse to renewable energy, that adhere to the strictest of environmental regulations to provide compelling solutions for communities across the continent. Serving more than 600 municipal and industrial water and wastewater facilities in the United States and Canada, Synagro’s leading systems of organic by-product management services support municipalities of all sizes in saving money and meeting environmental regulations.
