## **Synagro to Highlight Products and Services at Residuals and Biosolids 2022 Conference**

### **Company Will Host an Evening Underground at Columbus' Oldest Operating Brewpub**

**BALTIMORE, Maryland, May 19, 2022** – [Synagro Technologies, Inc.](https://www.synagro.com), the preeminent provider of biosolids and residuals solutions services in the United States, is pleased to announce its participation in the Residuals and Biosolids (R&B) 2022 Conference in Columbus, Ohio, May 24-27, 2022, at the Columbus Convention Center.

Meet Synagro's professionals at Booth 302 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying and energy generation to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

"We are looking forward to be exhibiting at the R&B 2022 conference in Columbus, and to be showcasing all of our products and services," announced Pam Racey, vice president, Business Development, Synagro. "We've also got something different, and let's just say underground, planned for our customers and prospects on Wednesday night from 7:00 to 10:00 p.m. at Barley's Brewing Company, the oldest operating brewpub in Columbus right across from the Convention Center."

Synagro representatives urge conference attendees who may not have already received an invitation to its Underground Evening to stop by Booth 302 to pick theirs up before room runs out.

### **About Synagro**

Founded in 1986, Synagro Technologies, Inc. provides environmentally sustainable solutions for commercial and municipal organizations that generate organic by-products. Synagro consistently transforms industrial and municipal waste into environmentally friendly resources that benefit our communities. As the largest recycler of organic by-products in North America, Synagro uses best-in-class processes, from beneficial reuse to renewable energy, that adhere to the strictest of environmental regulations to provide compelling solutions for communities across the continent. Serving more than 600 municipal and industrial water and wastewater facilities in the United States and Canada, Synagro's leading systems of organic by-product management services support municipalities of all sizes in saving money and meeting environmental regulations.
