## **Synagro Announces Kaivan Desai as New Chief Financial Officer**

*Selection supports mission to be a reliable partner who removes risk from a complicated process, so customers can help us make our communities healthier.*

**BALTIMORE, Maryland, August 9, 2022** – [Synagro Technologies, Inc.](#), the preeminent provider of biosolids and residuals solutions services in North America, today announced the appointment of Kaivan Desai as chief financial officer. Desai is an experienced financial executive with a successful record in public and private equity-backed companies across a diverse set of industries and business cycles.

Desai brings a passion for building businesses and a bias for action who attracts and grows talent while delivering results. He has served as chief financial officer at Artera Services; NCR Corporation, Hardware Division; and GE Power Services, Americas.

"Kaivan brings a global view to Synagro," said Robert Preston, chairman and chief executive officer, Synagro. "His broad-ranging background in both private and public sectors will support our mission to be a reliable partner who removes risk from a complicated process, so customers can help us make our communities healthier."

Desai has a bachelor's degree in Finance & International Studies from Indiana University Bloomington in Bloomington, Indiana.

### **About Synagro**

Founded in 1986, Synagro Technologies, Inc. works to turn waste into worth by helping more than 1,000 municipal, industrial water and wastewater facilities, and agricultural partners in North America move toward safer, cleaner and more environmentally beneficial practices. For some, it's simply cleaning the water supply. For others, it's much more – we partner with them to process their waste for compost or energy pellets, creating healthy soil and sequestering carbon in the process. As the largest recycler of organic by-products in North America, we're trusted because we remove risks while keeping the logistics clean. Because we have the most experienced team in the industry, we can offer tailored solutions that ensure no waste goes to waste. Much of our work isn't pretty. But it's a greener world emerging from a cleaner one – worth coming from waste – and we think that's pretty beautiful. Visit [www.synagro.com](http://www.synagro.com) to learn more.
